News Release

**Managed Asset Portfolios' Global Equity Fund and Global Balanced Fund
Earn Highest Overall Ratings from Morningstar™**

January 24, 2019

ROCHESTER, Mich.--Managed Asset Portfolios, LLC (MAP), a Rochester, Michigan-based independent investment advisor, announced that it has received Morningstar's highly coveted 5-star rating for both its Global Equity Fund (CAXIX) (for the 3-year period ending 12/31/18 out of 728 funds in the World Large Stock category based on risk-adjusted returns) and Global Balanced Fund (TRXIX) (for the 5-year period ending 12/31/18 out of 322 funds in the World Allocation category based on risk-adjusted returns).

These high-conviction global value funds are managed by the investment team of Michael Dzialo, Peter Swan, and Karen Culver and have been available to institutional and retail investors since 2011. The team has worked together closely for over 20 years, and that continuity has been vital to MAP's consistent long-term performance. MAP is a disciplined global value manager that utilizes rigorous selectivity with respect to capitalization, geography, and sector, while being ever mindful to risk management.

Founder, President, and Chief Investment Officer Michael Dzialo attributes the continued success to "developing and maintaining portfolios that are highly focused and concentrated in specific areas. MAP is expressly not an index fund or a closet indexer. We are not opposed to being overweight what we like and underweight or totally absent from what we don't like."

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable). Please note that the Morningstar rankings are for the I share classes only; other classes will have different performance characteristics due to different expense ratios.
